

EnerHarv 2018

PSMA Inaugural International Energy Harvesting Workshop

May 29-31, Cork, Ireland

Announcing the 1st EnerHarv workshop, a three-day, international workshop 'by energy harvesting people for energy harvesting people' to be held May 29-31, 2018!!!

Energy Harvesting / Energy Source / Micro-power Management / Applications / Live Demonstrators

— INVITATION TO CONTRIBUTE CONTENT TO WORKSHOP —

Organizer

EnerHarv is completely dedicated to bringing the best and brightest minds in this very siloed industry together to raise awareness, develop synergies between the various constituents of the energy harvesting ecosystem, and enable applications in a collaborative environment free from commercial pressures.

Host & Venue

This invite-only event will have technical lectures, live functional demonstrations, open panel discussions, a poster session, and plenty of social/networking time to cultivate the education and relationship-building. This is ensured by the EnerHarv Workshop Committee (EWC) headed by General Chair, Mike Hayes (Tyndall National Institute), and Technical Program Chair, Brian Zahnstecher (PowerRox).

Technical Sponsors

You are receiving this because you have been identified by the EWC as a valuable contributor to the energy harvesting industry and we will be honored to have you propose an addition to the program. There are **limited** slots available for the following –

- **Technical Lecture (25-30min)**
 - o **NOTE:** no hard limits on paper length, but should reasonably match lecture content.
- **Live, Functional Demonstration (5-15min)**
- **Poster Session**

Please see <http://www.enerharv.com/workshop-schedule/> for a more detailed breakdown of the workshop agenda.

Please see <https://goo.gl/ccmUrp> or www.pasma.com/HTML/newsletter/page9.html for a more detailed write-up on the workshop.

Please provide a title/abstract/bio as instructed by the EWC Session Chair that provided this invitation by January 26, 2018. You are also welcome to contact Brian Zahnstecher (bz@powerrox.com) for questions/concerns/requests.

Media Sponsor

All submissions will be reviewed and responded to by the EWC no later than February 28, 2018.

Go to <http://www.EnerHarv.com> for more details and sign-up to receive updates and registration information.
